ABU DHABI T10 LOGO GUIDELINES

THE T10 LOGO

The T10 league Logo has been designed to reflect the following:

- The world of cricket has changed
- Speed of the game is represented by the thick italic font of T10 denoting a sense of solidity and forward/fast movement, and the globe representing a ball which is also reflective of the 3 elements of the game – bowling, batting and fielding
- The stylized globe with a batsman swinging encapsulates ‘Global’ and big hits which is what the shorter format is all about, and is also reflected in the T10 Trophy
- The colours in the T10 font and the globe comprise colours which reflect positive energy
- Overall the logo reflects the spirit and the fastest form of the game

LOGO ELEMENTS

The T10 League logo comprises two core elements:

Symbol and **Wordmark**

The relationship between the components of the logo is fixed and must only appear in the approved layouts provided in these guidelines. The elements must not be changed, adjusted or modified under any circumstances.

If the full color logo cannot be reproduced, single colour versions are available for use (please see details on the following pages).

THE LIGHTNING BOLT

The Lightning Bolt will play a large role in all branding and communications of the Abu Dhabi T10.

The Bolt represents **the speed of 'Cricket's Fastest Format'** and is intended to make all communications and associations with players feel heroic.

The Bolt will feature in the primary and team backgrounds as well as in the holding shape.

The **shape of the bolt should not be edited** however the size and colour maybe be altered to fit the application it is being used in.

In digital settings (and some print - but only small scale), motion/path blur can be added to the bolt to give it the effect that it is moving at speed.

BACKGROUNDS

Two background styles are available. Use the **Primary background for the majority** of T10 communications. Use the secondary background for communications with white backgrounds such as tickets and letters (see ticket application on page 11).

The primary orange T10 should be used in the majority of branding but when creating team communications adjust the colours to match the team's colours. **This should not be over used** - it is purely for occasions like the Dug Out example below.

Bangla Tigers

Deccan Gladiators

Delhi Bulls

Morrisville SAMP Army

New York Strikers

Northern Warriors

Team Abu Dhabi

The Chennai Braves

HOLDING SHAPE

The following primary holding shape has been created to **reflect the sharp angles of the T10 logo and the lightning bolt theme**. Please use the primary holding shape when stand out is an issue or in digital applications such as TV graphics.

The team holding shapes have the added touch of the team's colours. These should be used in communications where additional distinctions between the team names is/could be necessary.
